THE UNIVERSITY OF TEXAS AT TYLER
COLLEGE OF NURSING AND HEALTH SCIENCES

NURS 5366
Family Nurse Practitioner
Primary Care II

Course Syllabus

Spring 2014

Faculty:

Dr. Amy Toone, PhD, APRN, FNP-BC
Carol Price MSN, APRN, FNP-BC
Welcome

Welcome to NURS 5366 – FNP Primary Care II. Faculty teaching in this course include Dr. Toone and Carol Price. We look forward to meeting with you on the internet, in clinicals, as well as in our virtual classroom.

Please refer back to the information contained in this Syllabus any time you have a question regarding the basic course information. You can access a printable version of course material by clicking the Printable Version link. You will need to download a free Adobe Reader to view PDFs.

One final note, if you are unfamiliar with accessing the Internet or have questions regarding technical requirements, you may want to look at the services available at The University of Texas at Tyler Blackboard website. There are tutorial at the University Blackboard site that you will assist your navigation of blackboard. A list of basic technical requirements are also listed in this Syllabus for your convenience. In addition, you can access the UT Tyler website for general information about UT Tyler and its student services, which will be reviewed briefly later in this Syllabus. For purposes of the exams you will need good internet access and dial up is inadequate. You may come to the school library for good wifi should you not be able to locate it closer to home.

Course Instructors:

Dr. Amy Toone, PhD, APRN, FNP-BC

Email: atoone@uttyler.edu
Work Phone: (903) 566-7220 / FAX (903) 565-5533
Cell phone: 325-320-2032
Office Location: BRB 1155
Office Hours: By appointment but online Wed 8-9:30 pm weekly

Carol Price MSN, APRN, FNP-BC
Email: cprice@uttyler.edu

Cell 903-521-9137
Office Location: BRB 2280
Office hours: By appointment but online Wed 8-9:30 pm weekly

NURS 5366
Family Nurse Practitioner Primary Care II (Total Credits: 3 hours; 90 Clinical Hours)

Course Description
In this course we will study nursing role components critical to primary health care. Facilitators for and barriers to the implementation of primary health care will be identified. Clinical practice involves collaboration and implementation of primary health care role in selected health care settings. (Prerequisites: N5350, N5352, N5354, N5334, N511, N522, & N5364)

Overview
While this course continues to build on previous knowledge and practice of care of individuals and families, the focus of the course is the role components critical to primary health care. The evolution of the role of the nurse practitioner in primary health care is explored at the local, state, national, and international levels. Models of nurse practitioner practice are examined. Role components critical to primary health care and to the role of the nurse practitioner in primary health care are analyzed. Facilitators for and barriers to the implementation of primary care are explored. Students will work closely with a clinical preceptors and nursing faculty to gain experience in developing the nursing role components critical to primary health care. Such experience involves and facilitates collaboration and the implementation of the primary health care role in selected health care settings. In the belief that graduate education acknowledges and facilitates individual diversification, faculty also provide the opportunity to individualize outcomes based on the perspective of the individual learner.

Objectives
Upon completing this course, the learner will have demonstrated the ability to:

1. Assess, plan, manage, evaluate, and revise the care of individuals and families in primary health care settings, referring clients to other health care providers and/or community resources as appropriate.

2. Practice the NP role using nurse practitioner protocols that contain both an evaluation/diagnostic protocol and a plan/management protocol.

3. Conceptualize the role of the nurse practitioner in primary health care.

4. Analyze the evolution of primary health care and the role of the nurse practitioner in primary health care.

5. Explore the influence of the image of nurses on the acceptance of primary health care practitioners.

6. Develop a plan for independent or collaborative practice.

7. Analyze the factors in a selected health care setting that facilitate and hinder implementation of primary health care.
8. Explore the relationship of the role components critical to primary health care, such as power, negotiation, collaboration, advocacy, change, ethics, quality assurance, economics, certification/credentialing, conflict, competence, and professionalism, to role-behavior prescriptions, descriptions, and expectations of the nurse practitioner.

9. Using research findings, evaluate the effectiveness of the nurse in primary health care from the perspectives of nurse practitioners, the public, physicians, and legislators.

Required Resources

Gilbert, D. (2014). *2014 Sanford guide to antimicrobial therapy (Spiral Edition)*. Hyde Park: Sanford. (the Sanford app may be substituted for the spiral edition and can be purchased at [http://sanfordguide.com](http://sanfordguide.com))

Papadakis, M., & Stephen J. McPhee, Michael W. Rabow (2014) *Current Medical Diagnosis and Treatment* ISBN: 9780071806336

FNP Program Applications Needed:

1. **Epocrates** Call 1-800-230-2150 and give them your .edu email and you can get the program at a discount of $80.00. In order to receive this educational discount you must purchase the program by clicking the link

   This is a premium service containing all of our DISEASE information. EPOCRATES ESSENTIALS Premium is a state of the art, point-of-care, clinical content & resource center. This app will allow students and clinicians to quickly provide better patient care:

   • Verify your diagnosis through the Differential Diagnosis feature
   • Find hundreds of diagnostic & laboratory tests by disease type
   • Search infectious diseases by system or organism
   • Evaluations: Hundreds of symptoms to identify conditions
   • History & Exam & Treatment options for ALL diseases
   • Follow up recommendations & complications possibilities for ALL diseases
   • 100% evidence based with citations
   • Adds access to alternative medications & may be included in interaction checks
   • Prepare case-based study
   • Review entire library of evidence based & referenced diseases & conditions

**ACTIVATION INSTRUCTIONS:**

1. Click Link below:
   https://www.epocrates.com/referral.do?p_r_name=UnivTxTylerDiscount
2. Login (for those who already have an account) or Register. Give Ut patriots email.
3. Check out. Discount will ONLY automatically appear on the checkout screen.
4. Pay as normal with credit card.
5. Click link again to purchase second year

   Technical questions can be directed to our free customer support: (800) 230 - 2150.

2. **Typhon** $80 one-time fee- You should already have this. Lindsey Heaton lheaton@uttyler.edu has added you to Typhon and has sent you an email with your username/password to your patriots email account. Please check this email, follow the link to login and pay after logging in. If you have any questions for
Typhon please contact Katie Campbell, 800-333-7984 x27 or katie@typhongroup.com.

3. **UpToDate** $35.00/yearly subscription

A discount rate of $35.00 has been agreed up by UpToDate! Please send a check for $35.00 made out to The University of Texas at Tyler to: Lindsey Heaton
Graduate Nursing Dept
3900 University Blvd, BRB 2215
Tyler, TX 75799

Once the contract is in place Lindsey will send information on how to access the account. There is no username/password, but instead a website link that will work when all is good to go.

*Dermatology for Primary Care* cost $149/year subscription. Please make checks out to the University of Texas at Tyler and mail to c/o Lindsey Heaton 3900 University Blvd BRB#2215, Tyler TX 75799. You will need this subscription starting Spring 2015 the second week so you will need to send in your checks prior to Dec 5 2014. You will have assignments from this program the second week of the spring 2015 semester.

EVALUATION/GRADING

Required Student Satisfaction Assessment Tool Completion

The University of Texas at Tyler is proud to participate in the Culture of Assessment and the Culture of Evidence. In order to meet the requirements for our Accrediting Organization, the School of Nursing requires each student to complete the Student Satisfaction Assessment tool.

Completion of the following three evaluation tools is mandatory:

1) UT Tyler asks you to complete a voluntary evaluation of both the faculty and the course. These evaluations are used to make improvements and adjustments in the overall online learning forums for the course. An end of semester evaluation specifically for this course will be made available for you to complete in the last week of instruction. Your comments and recommendations will be considered seriously as the course is updated. Your input throughout the semester
contributes to our commitment to improve continually the quality and relevance of this course.

2) Evaluation of Preceptors by the student
3) Evaluation of each Clinical Site by the student

Grading Criteria

A = Excellent  90-100
B = Above Average  80-89
C = Average  70-79
D = Below Average  60-69
F = Unsatisfactory  59 or below

COURSE ELEMENTS

A student’s achievement of the course objectives is evaluated based on the following activities:

**Exams**

1. There are four exams scheduled in NURS 5352 (see course schedule). The module objectives will guide the selection of items for the tests. Emphasis is on application and synthesis of knowledge. See course schedule for the modules covered in the exams.
2. **A minimum average grade of 80% on the 4 exams must be achieved in order to pass the course.** Even if the final course grade is 80% or more, the average grade on the 4 exams must be 80% or higher to pass the course. All exams will be on-line via Proctor U. Exams will be time limited. You will be given 1½ minutes for each of the question. Dates and Times for each exam are listed in the course schedule). Exams may include multiple choice, matching questions and possibly essay. **Make up exams are typically essay exams.**

3. Absolute integrity is expected from each student in all aspects of the course. Cheating on exams will not be tolerated. Students may be dismissed for violation of academic integrity. Exams are not open-book. No notes, books, papers or aids are to be used during the test. Students are to work individually and submit the test within the allotted time frame. **All persons involved in Academic Dishonesty will be disciplined in accordance with University Regulations and Procedures.** You are responsible to read and follow the student guidelines on academic integrity.

4. After all students have taken the exam, the students will be given the opportunity to ask questions regarding the exam in discussion board for faculty for review.

5. Grades will be posted on Blackboard, but should not be considered the official grade for the course.

6. Opportunities to review exams will be provided within 2 weeks of the administration of the exam. After that time period, the exam may no longer be reviewed.

7. If you are unable to take the exam on the posted date, notify the course facilitator ASAP. An alternate exam may be given at the discretion of the course facilitator, which may be comprised of essay questions.

8. **Exam policy:**

   Students will using a service called **“Proctor U”**. Students will be responsible for payment for the proctor service. There will be three exams total in the course. The first two exams are 90 minutes, and the final exam will be a 3-hour exam. The cost for the proctor service is $25 for a 90-minute exam, and $33.00 for a 3-hour exam. **Exams must be taken during the time designated unless other arrangements are made with Instructors.** More information about this will be provided during the course orientation. **Students must sign up with Proctor U at the beginning of the semester for all four exams. Exams will be time limited.** Exams may include
(multiple choice, matching and possibly essay). Students must achieve an average of 80 on all three exams in order to pass the course. A handout provided by proctor u will be loaded on Blackboard for added information.

Exam Dates: See Course Schedule

B. Assignments

1. Clinical SOAP NOTE (See Primary Care Clinical SOAP NOTE Template and OB/GYN Clinical SOAP NOTE Template)

SOAP NOTES are due on the dates given in the schedule. Each student will submit a clinical SOAP NOTE for an OB/GYN patient and one Elderly Adult patient (over age 65). Faculty must approve selection of patients for clinical case studies. The clinical case study must be based on an actual patient whom you cared for during your clinical experience (this semester) and in collaboration with an approved preceptor.

All written assignments are to be completed in Microsoft Word, using the appropriate template and submitted by the due date.

All written assignments should be submitted through the assignment links and safe assign. Plagiarism is a serious academic offense. Please avoid the consequences of academic dishonesty by citing all sources that you use in your work. Academic dishonesty, such as unauthorized collusion, plagiarism and cheating, as outlined in the Handbook of Operating Procedures, University of Texas at Tyler, will not be tolerated. University regulations require the instructor to report all suspected cases of academic dishonesty to the Dean of Students for disciplinary action. In the event disciplinary measures are imposed on the student, it becomes part of the students' official school records. Also, please note that the handbook obligates you to report all observed cases of academic dishonesty to the instructor.

Late assignments will receive point reductions at 5 points a day late (including weekends).

C. Class Attendance, Participation, and Professionalism

Graduate students at The University of Texas at Tyler are held to a high standard of professionalism. The UT Tyler student represents not only themselves, but the University as well. Professionalism issues include, but are not limited to the following: 1) timely attendance to clinical section meetings, exams, or clinical activities (tardiness); 2) appropriate dress and behavior in class and clinical activities (includes turning off cell phones and pagers, and appropriate grooming
and attire both in the classroom, and in the clinical area); 3) leaving class or clinical area to answer phone or make calls; 4) adherence to the Academic Honesty policy of UT Tyler and course syllabus; 5) repeated absences or tardiness to class or clinical activities; 6) failure to notify the faculty or preceptor about changes in the preceptor agreement; 7) tardiness to the clinical site; and 8) failure to adhere to the clinical dress policy. 9) falsely reporting clinical hours, 10) No show and no call to the preceptor will result in a severe penalty (possibly including course failure).

As adult learners, graduate students are responsible to complete all work required in this course in the time frame outlined in the course schedule. Students who have emergency situations should contact the course faculty and preceptors as soon as possible. Students are expected to arrive on time to class and to their clinical sites. In addition, students are expected to dress in professional attire and wear a white lab coat with the UT Tyler patch on the front Left chest.

**Clinical expectations of students:** Clinical section meetings are mandatory (6 must be attended and you must participate in these 6 sessions). Clinical section meetings will be met from 8-9pm on Wednesdays as per the course calendar. Clinical decision-making and diagnostic reasoning must be mastered by the nurse practitioner student. The expectation is that students will demonstrate appropriate professional interaction and discussion of clinical experiences, as well as information from reading/studying didactic information. Lack of student discussion and/or class participation may result lowering the course grade. **Students are expected in this course to present to their preceptor or faculty the diagnosis and treatment plan correctly for 50 % of the overall patients they see in clinical during this semester.**

Reading of professional materials (books, journals, etc) is an integral aspect of role development as a nurse practitioner. It is recommended that students spend a minimum of 2 hour daily reading materials related to assigned readings, clinical topics, and professional issues associated with the NP role and competencies.

**D. Optional Opportunity for Clinical Hours: Medical Missions**

Students who participate in medical missions, such as Refuge International (http://www.refugeinternational.com/) may be able to earn clinical credit for those experiences. Students requesting clinical hours for medical missions must obtain approval from the clinical Instructor PRIOR to claiming hours for the experience. A maximum of 24 hours may be awarded for medical mission experiences. The hours are awarded based on the hours you are actually seeing patients. A summary of experience of your clinical experience must be turned in to you clinical instructor to obtain credit, and hours/encounters must still be logged in Typhon.
E. Late Papers

All late assignments may be assessed a 5 points per day penalty (including week-ends) when the assignment is not posted on the assignment icon by the due date and specified time. All papers are due by the specified time (Central Standard Time) listed in the course calendar and/or the course syllabus. Submit assignments via the assignment icon on Blackboard.

F. ABSENCES/MISSED LAB HOURS

Instructors reserve the right to create alternative assignments in cases of missed class days. Students may also receive point deductions for the missed class day, and/or assignment.

G. Evaluation

It is mandatory that each student completes the course, faculty, preceptor, and clinical site evaluation forms at the end of the semester.

H. Communication

- With Preceptors
  Clarity in communication is absolutely critical to the professional role, especially for the advanced practice nurse. Thus, clarity in communication in charting, presenting the case to the preceptors for consultation and/or collaboration, is desirable. Communicate clearly with preceptors about your objectives, learning needs, and clinical hours. Preceptors provide feedback to the student and the faculty about the students’ clinical performance.

- With Faculty
  Regular communication with the clinical faculty is required to review clinical activities, develop on-going objectives, and evaluate clinical progress. Failure to fulfill the scheduled communication requirements will result in course failure. This includes but is not limited to clinical schedules, communication logs, and clinical section meeting interactions.

- On Blackboard
  Students are to check the discussion board of Blackboard daily for announcements and new information. Students may post questions in the designated areas to other students or the course faculty. Students are to check their UTTYLER email daily.

  All student assignments should be posted for evaluation using the assignment icon in Blackboard. Graded assignments will be posted there also unless your clinical faculty makes alternate arrangements with the student.

CLINICAL PERFORMANCE AND CLINICAL REQUIREMENTS
A. Clinical Performance Evaluation

Students must satisfactorily complete the clinical performance component of evaluation. Clinical performance requires application of key concepts in providing care to individuals and families as evidenced by documentation in the Clinical Performance Evaluation Form (CPE) by Faculty and Preceptors. A minimum of 2-3 satisfactory CPE’s must be completed to provide evidence of satisfactory performance. (A minimum of 1 CPE from faculty and 2 CPEs from preceptors.)

In order to pass the CPE, students must perform each clinical activity listed in the CPE at a minimum of “level 3”, AND an overall average of 3.5 for this course.

Course faculty will complete at least 1 Clinical Performance Evaluation per semester. These evaluations will be performed either at Hiway 80 Homeless Clinic, at the student’s clinical site, faculty practice sites, or another site arranged by the faculty. Additional evaluations may be scheduled at the discretion of the faculty, should the student require additional observation and evaluation. Students should notify clinical faculty immediately (by phone and e-mail) of any suspected or known changes in their clinical schedule.

Depending on the faculty recommendations, a second CPE may be required. If the student has achieved an average rating of 3.5 or higher on all elements of the faculty CPE at mid-term, the second site visit by faculty is optional. Under all circumstances for all students, 1 satisfactory CPE must be completed by the faculty, and 2 satisfactory CPEs must be completed by preceptors (One Mid-term and one Final CPE).

Clinical experiences should be focused on care of patients with primary care health needs. Primary care settings provide opportunity for comprehensive and continuous care. A maximum of 50% of clinical experiences may involve episodic client visits. A minimum of 50% of clinical experiences must involve comprehensive client visits requiring long term management.

A minimum of 50% of clinical hours (for the overall program) must be completed with a nurse practitioner.

The clinical component of the course must be passed in order to pass the course. Only when the clinical component is passed, will the student be awarded a course grade on the scored evaluation items listed above. Failing to complete the clinical component satisfactorily results in an “F” in the course.

B. Clinical Requirements
1. **Clinical Objectives**

Students should have a minimum 3 written clinical objectives for each clinical site that should be given to the preceptor before starting clinical hours, and should be uploaded to Blackboard via the assignment link. Multiple submissions via the assignment link are allowed. Clinical objectives should be based on the CPE criteria, course content and/or module objectives, and the student's individual learning needs.

2. **Required Clinical Hours**

A minimum of 90 clinical hours is required for satisfactory completion of this course and a total of 675 clinical hours for the entire program. The breakdown of clinical hours for the program is as follows:

- Pediatrics – 150 hours
- Women’s Health – 75 hours
- Family Practice – 450 hours

One half of all hours for the program must be completed with a Nurse Practitioner preceptor. The remainder of your clinical hours may be completed with other approved health care professionals. (MD, DO, CNM, PA). It is not approved to do clinical hours with your family members or at your place of work.

Remember, 90 hours is the minimum amount of clinical hours for this course, but you can do more hours. However, hours cannot be "banked" for use in future courses. So, for example even if you complete 120 hours during this course, you will only be allowed to count 90 hours toward the total 675 hours. The reason for this is that each course is independent and the hours calculated are based on the ratio of didactic to clinical time. You must have approval from your clinical faculty for any clinical setting and preceptor you will be working with, prior to starting any clinical hours.

Please use the facility agreement and preceptor forms that can be found at the Mission Possible Blackboard site under the file “Important Stuff”. This Mission Possible will be in your organizations tab in blackboard (upper right hand corner of screen). There is a link to these forms on Blackboard for your convenience. Forms must include all information in order to be processed. You are expected to log your hours in Typhon throughout the semester. Please download and save a copy for your records and upload a copy of your logs and hours via the assignment link. In addition, complete the **Summary of Clinical Hours form that is located under "Clinical Documents" on Blackboard at the end of each semester**. Experiences available to the student will depend on the clinical site and preceptor.
**Approximately** one-half of the total 90 clinical hours for this course should be Women’s Health or OB/GYN experiences. The women’s Health hours can be done in an OB/GYN or Family Practice Clinic that sees a large number of Women’s Health patients. 16 of the 45 hours should be prenatal care or OB. The remainder of the 45 hrs may be any GYN issue.

The remaining clinical hours should be completed in a Family Practice or Internal Medicine setting, that include chronic problems and chronic disease management.

Faculty reserves the right to assign additional clinical hours if the student fails to achieve an adequate clinical performance. Because course faculty responsibilities are to guide, direct, and evaluate student learning in this course and in the program, the faculty will not hesitate to assign additional clinical hours when indicated. This provision is certainly not designed to be punitive, but to assure students the baseline competency necessary for continuing in the program.

**C. Clinical Site Approval**

Arrangements for students to perform clinical activities at hospitals and other agencies must be made between the agency and the College of Nursing and Health Sciences PRIOR to a student being able to arrange clinical hours at the site.

Preceptor agreement, in writing, MUST be in place PRIOR to your performing any clinical activities at a site. It is the student's responsibility to initiate and follow up on this in a timely manner. This requirement must be met, even for only one day at any particular site.

Each student will complete one Preceptor Data Sheet and Letter of Agreement (PDF) for EACH clinical site. This effort is coordinated by Lindsey Heaton and she can be reached at heaton@uttyler.edu.

**D. Clinical Preceptors**

This course requires 90 clinical hours in addition to the didactic content. Students are required to find their own preceptors. Arrangements for students to perform clinical activities at any clinic, hospital or other site must be made between the agency and the school of Nursing prior to any student participation in clinical hours at the site. Students must check to see if the selected site is has an approved facility agreement. The list of approved facilities is located on Blackboard under “Course Documents/Clinical Forms”. Lindsey keep the most current list so please contact Lindsey to assist you in this process. **If the site does not have a facility agreement, the student is responsible for initiating one. Complete the Facility Agreement online form for review and approval by faculty.**
Students must also submit an online Preceptor Agreement Form (See clinical forms folder on Blackboard) for each clinical preceptor. This requirement must be met, for every preceptor.

- Forward this form to Lindsey Heaton at lheaton@uttyler.edu.
- NOTE: The form must be completed and SIGNED by the preceptor before you begin clinical hours.

1. Lindsey will notify you via e-mail when the preceptor and/or facility is approved so that you may start your clinical hours. You will not receive any credit for any clinical hours done prior to approval.
2. If a facility agreement is not on file, it may take some time to get this accomplished, so start this process as early as possible. This information is provided to help you plan your clinicals, so that you are not waiting for approval.
3. Your clinical faculty must approve your preceptors and your clinical schedule prior to beginning any clinical hours. Students are strongly encouraged to begin making contacts with potential preceptors now, in order to begin your clinical hours once you have actually started the course.
4. Clinical rotations must be approved by your clinical faculty. Students will not receive credit for clinical hours obtained without approval.
5. Students are responsible for negotiating clinical time with qualified preceptors. When discussing course requirements and preceptor responsibilities please refer to the Preceptor Handbook and consult with Lindsey and faculty.
6. A schedule of proposed clinical hours for each semester must be submitted to your clinical faculty at the beginning of the semester (see specific date on calendar). Clinical schedules should be submitted using the Clinical Schedule Template provided. This is also located under the “Course Documents/Clinical Forms” folder. Completed clinical schedules should be submitted via the Assignment link provided in Blackboard. Failure to submit your clinical schedule will be considered a failure of the assignment.
7. Revisions of your clinical schedule should be submitted to clinical faculty as soon as changes are known via e-mail. If changes are related to a site visit, contact your clinical faculty ASAP by phone.
8. In order to be eligible preceptors for the Family Nurse Practitioner Program, the following criteria must be met:
   - Advanced Practice Nurses must have practiced for at least one year
   - Advanced Practice Nurses must be licensed by the state in which they are practicing.
   - Physicians must be licensed by the state in which they are practicing and have at least one-year of experience.
   - All preceptors must be certified by the appropriate certifying body

E. TYPHON Clinical Hours Tracking System:

Each student will provide an accurate and complete listing of all patients cared for during the course. In addition, all clinical hours completed should be logged
Entries should be posted within one week of the clinical experience. Typhon will be evaluated by your instructors at mid-term and at the end of the course. Fabrication of entries is academic misconduct. Enter patient data accurately and completely into Typhon. These logs may be requested by the Board of Nursing if you move to another state and request approval as an APN there. It is the responsibility of the student to keep these logs.

IMPORTANT UNIVERSITY DATES:

See course calendar and UT Tyler academic calendar on the university web site.

OTHER IMPORTANT INFORMATION

Assignments/Projects Turn-In Process

All assignments and projects will be submitted through the assignments link. Use the following process to prepare and submit assignments:

- Prepare your assignment using Microsoft Word. Name your assignment with the following convention: First initial, Last name, Assignment title, Course Number (ex. MSmithPediatricCaseStudyN5352)
- Click on "View/Complete Assignment" in the modules overview area or project area
- Number 1-shows the assignment instructions
- Number 2-is where you add your comments and attach your completed assignment
- Number 3-when all attached files (your completed assignment files) are uploaded, click submit

When assignments are received, we will open them in Microsoft Word for grading. This will enable us to make comments, ask questions, etc. We will then return your assignment through the Student Grade book area. To see comments about your assignment, click on your grade.

If you need more instructions on how to submit files through the assignment link in the modules, please read the Blackboard Student Manual located in the Tools area.

Name Badges

Nurse Practitioner students are to wear their Name Badges whenever they are in the clinical setting.

IMPORTANT UNIVERSITY POLICIES

http://www.uttyler.edu/academicaffairs/syllabuspolicies.pdf

Students Rights and Responsibilities

To know and understand the policies that affect your rights and responsibilities as a student at UT Tyler, please follow this link:
http://www.uttyler.edu/wellness/rightsresponsibilities.php
Accessing Library Resources

Students enrolled in this course have several options to access library resources. You may visit your home campus library or the Robert R. Muntz Library at the University of Texas at Tyler. Follow this link, and then complete the instructions at those sites for accessing information from a distant site.

Course Evaluation

UT Tyler asks you to complete a voluntary evaluation to help them make improvements and adjustments in their overall online learning forums. Also, an end of semester evaluation specifically for this course will be made available for you to complete in the last week of instruction. Your comments and recommendations will be considered seriously as the course is updated. Your input throughout the semester contributes to my commitment to improve continually the quality and relevance of this course.

Technical Information

This is a centralized listing of important technical information and assistance.

If you experience technical problems or have a technical question about this course, you can obtain assistance by accessing The UT Tyler Campus Computing Center.

Computer Requirements-Minimum hardware requirements and recommended software configurations

- Ensuring you have the proper hardware and software is imperative to your success in an online course. The requirements are based on the results of testing conducted by Blackboard. Additional information is available at http://wiki.utttyler.edu/pages/viewpage.action?pageId=1474652
- Audio 16 bit or better sound card and speakers (if your course contains audio content)
- Internet Connection 56.6 KBPS modem, cable modem, DSL, or intranet (T-1)

What are the recommended computer requirements to access Blackboard?

Please refer to IT support on UT Tyler web page for this information.

http://lms-media.utttyler.edu/fileman/OID/Resource/skills.html

** Note: You can buy Microsoft Windows XP and Microsoft Office 2003 at the UT Tyler bookstore at an affordable price.
Note: Corporate or academic security firewalls may block some course content, such as chat or streaming media. **Do not schedule to take an exam in a building with firewalls as it prevents connection to Proctor U.**

- **Email Address**
  Email is a vital communication medium in online learning. It is important that you have a working email address to receive communications from your advisor, instructors, and classmates. You are responsible for keeping your email address and other personal information up to date in the Tools Area, Personal Information section and on MyUttyler.edu.

- **Virus Protection**
  It is recommended that you protect your computer from viruses. Keep your antivirus software up to date with the latest virus updates. Antivirus and Personal Firewall products may be available to you for free or at a reduced price through the Campus Computing Center. Check with your ISP, network help desk, or search the Internet for more information and product resources.

- **Spyware & Adware Protection**
  Spyware and Adware are fast-growing threats that represent a major security and privacy risk. **Spyware** is a program that is installed, with or without the user’s permission, and can monitor computer activity while broadcasting the information back to an outside party that controls the program. **Adware** displays unwanted advertising to your computer, can track your Web surfing habits and report it back to a central advertising server. It can slow your PC to a crawl by bombarding it with unwanted ads. Spyware and Adware removal tools and protection may be obtained through the Campus Computing Center or online resources.

- **Browsers:** You need the latest version of Explorer, Google Chrome, and Firefox for this course.

  - **Unsupported Browsers**-America Online (AOL), Prodigy, Juno, MSN, Yahoo and other Internet Service Providers (ISPs), provide their own internal and proprietary web browsers. These browsers may not be compatible with UT Tyler courses. We strongly recommend downloading and installing one of the Blackboard supported browsers listed above to ensure optimal functionality with the elements of your online course. **Note:** It’s not recommended to use IE on Macintosh since it is no longer supported by Microsoft.

- **Getting Help** -If you are having technical problems, please contact the Campus Computing Center:
  - Campus Computing Center
    Business 101
    3900 University Blvd
    Tyler, TX 75799
IMPORTANT UNIVERSITY POLICIES

http://www.utt Tyler.edu/academicaffairs/syllabuspolicies.pdf

Students Rights and Responsibilities
To know and understand the policies that affect your rights and responsibilities as a student at UT Tyler, please follow this link:
http://www.utt Tyler.edu/wellness/rightsresponsibilities.php

Grade Replacement/Forgiveness
Students repeating a course for grade forgiveness (grade replacement) must file a Grade Replacement Contract with the Enrollment Services Center (ADM 230) on or before the Census Date of the semester in which the course will be repeated. Grade Replacement Contracts are available in the Enrollment Services Center or at http://www.utt Tyler.edu/registrar. Each semester’s Census Date can be found on the Contract itself, on the Academic Calendar, or in the information pamphlets published each semester by the Office of the Registrar. Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. Undergraduates are eligible to exercise grade replacement for only three course repeats during their career at UT Tyler; graduates are eligible for two grade replacements. Full policy details are printed on each Grade Replacement Contract.

The Census Date is the deadline for many forms and enrollment actions that students need to be aware of. These include:

- Submitting Grade Replacement Contracts, Transient Forms, requests to withhold directory information, approvals for taking courses as Audit, Pass/Fail or Credit/No Credit.
- Receiving 100% refunds for partial withdrawals. (There is no refund for these after the Census Date)
- Schedule adjustments (section changes, adding a new class, dropping without a “W” grade)
- Being reinstated or re-enrolled in classes after being dropped for non-payment
- Completing the process for tuition exemptions or waivers through Financial Aid

State-Mandated Course Drop Policy
Texas law prohibits a student who began college for the first time in fall 2007 or thereafter from dropping more than six courses during their entire undergraduate career. This includes courses dropped at another 2-year or 4-year Texas public college or university. For purposes of this rule, a dropped course is any course that is dropped after the census date (See Academic Calendar for the specific date). Exceptions to the 6-drop rule may be found in the catalog. Petitions for exemptions must be submitted to the Enrollment Services Center and must be accompanied by
documentation of the extenuating circumstance. Please contact the Enrollment Services Center if you have any questions.

**Disability Services**
In accordance with federal law, a student requesting accommodation must provide documentation of his/her disability to the Disability Services counselor. If you have a disability, including a learning disability, for which you request an accommodation, please contact the Disability Services office in UC 3150, or call (903) 566-7079.

**Student Absence due to Religious Observance**
Students who anticipate being absent from class due to a religious observance are requested to inform the instructor of such absences by the second class meeting of the semester. At that time the instructor will set a date and time when make-up assignments will be completed.

**Student Absence for University-Sponsored Events and Activities**
If you intend to be absent for a university-sponsored event or activity, you (or the event sponsor) must notify the instructor at least two weeks prior to the date of the planned absence. At that time the instructor will set a date and time when make-up assignments will be completed.

**Social Security and FERPA Statement:**
It is the policy of The University of Texas at Tyler to protect the confidential nature of social security numbers. The University has changed its computer programming so that all students have an identification number. The electronic transmission of grades (e.g., via e-mail) risks violation of the Family Educational Rights and Privacy Act; grades will not be transmitted electronically.

**Emergency Exits and Evacuation:**
Everyone is required to exit the building when a fire alarm goes off. Follow your instructor’s directions regarding the appropriate exit. If you require assistance during an evacuation, inform your instructor in the first week of class. Do not re-enter the building unless given permission by University Police, Fire department, or Fire Prevention Services.
