<p><b>Participation Expectations and Discussion Assignments:</b></p>	<p>A Rubric for how postings will be graded is provided in the next section of this Syllabus.</p> <ul style="list-style-type: none"> <li>• Each participant is responsible for participating in the asynchronous discussions of each Module. This participation will include posting answers to questions posed by the instructor and replying to other participants' postings.</li> <li>• Discussion postings should be made in a timely manner. Deadlines are listed in the Course Schedule. Please note that all discussion postings must be completed by midnight Central Standard Time on the due date.</li> <li>• Participants should plan on entering the Discussion area several times a week in order to read and comment on others postings. Posting answers to the questions posed in the Discussion area should be done in advance of the deadline in order to allow other participants to have the opportunity to comment.</li> <li>• Quality of answers is as important as quantity. A participant's comments should add to the discussion. Comments should be supported as required with references cited appropriately. The instructors and/or participants may use synchronous chats as the need arises.</li> </ul> <p><b>Note:</b> When posting to the discussion area, please type in your comments directly into the Discussion Board. Do not type your comments into a document and then attach it to the discussion-this method is difficult for some students to access. In addition, if you type your comments into a Word document then copy and paste it into the Discussion Board, please delete extra spaces.</p>
<p><b>Discussion Board Postings - Grading Criteria:</b></p>	<p>The purpose of the discussion board in an online graduate program is to take the place of the class interchange that would occur in a face-to-face class. It is your opportunity to demonstrate your mastery of the assigned readings and your ability to supplement those readings with expanded exposure to related (and sometimes contrary) information that you will seek in your self-directed quest to understand and be informed. To that end, we will expect you to share ideas you have gained from the literature, noting the source when appropriate and interpreting into your own words. We will also expect that you will use a more complex thought process to dissect and analyze what you read in the literature and in the discussion thoughts of your fellow students as you offer your own insights. We do not care if you use big words or a lot of words (remember, the world values parsimony), but we are eager to read your thoughtful insights into the questions and statements, your analysis of the words and</p>

	ideas, and your recommendations for future pathways for nursing and healthcare. The following information will give you some guidelines and allow you to see thinking process we will use to assign a grade to the discussion board exercises.
--	--

<b>Discussion Board Rubric</b>			
<b>CRITERIA/POINTS</b>	<b>&lt;80</b>	<b>80-89</b>	<b>90-100</b>
Format and logical progression of posting	Spelling and grammar errors detract from the substance of the posting; random thoughts with no sense of a plan to reach a logical conclusion. No clear main idea or direction for flow of information.	Midpoint	Form is superior; obvious attention to proofreading and grammar. Main idea is stated early and clearly; argument or ideas are built using a logical progression of thoughts which are stated clearly and succinctly.
Depth and relevance of post to the topic at hand	Posting shows superficial thinking based on personal experiences or opinions only, there is little consideration of contributions to the topic in the literature or from colleagues. Literature support is not relevant to the topic or major literature contributions are missing. Post strays from topic with much irrelevant information and does not address the intent of the assignment. No references cited	Midpoint	Posting clearly shows evidence of critical thinking and analysis to a substantial depth expected of a doctoral student. Ideas offered are relevant to the topic and show the ability to extrapolate complex ideas from various sources into a coherent argument or statement(s). Two or more relevant references cited; cited references are appropriate and indicative of the best knowledge on the topic.
Contribution to the learning community	Posting is largely aimed at self-expression without consideration of the reader. There is no room for dialogue or disagreement and no acknowledgment of the potential contributions of others. The posting is a rehash of old ideas without consideration of how these can advise the future. No evidence is found of making the material consumable or reader-friendly	Midpoint	Posting shows an astute awareness of the needs of the learning community with an interest in their growth and knowledge acquisition; attempts to move colleagues into meaningful dialogue and presents creative approaches that are open to discussion. Post contributes to the progression of nursing as a scholarly community but is presented in a clear, enlightening, and engaging way.

<b>Expectations:</b>	
<b>Written Assignments:</b>	<ul style="list-style-type: none"> <li>• All written assignments are to be completed in Microsoft Word and submitted in a timely manner. Deadlines are listed in the Course Schedule.</li> <li>• Please note that all written assignments must be submitted by midnight Central Standard Time on the due date.</li> <li>• All written assignments should be submitted through the assignment links. If your web connection is down for some reason, please contact your instructor by telephone to make arrangements to get the assignment submitted within the posted time period.</li> <li>• Plagiarism is a serious academic offense. Please avoid the consequences of academic dishonesty by citing all sources that you use in your work. Consult the academic dishonesty statements in the Graduate Nursing handbook and on the university web site.</li> </ul> <p>Late assignments will receive point reductions (see Grading Information and Course Requirements section within this Syllabus).</p>
<b>Assignments/Projects Turn-In Process:</b>	<p>All assignments and projects will be submitted through the assignment link in each module. Use the following process to prepare and submit assignments:</p> <ul style="list-style-type: none"> <li>• Prepare your assignment using Microsoft Word. Name your assignment with the following convention: last name, assignment title (ex. Last_Assignmenttitle) Browse and find then download your document.</li> </ul> <p>When assignments are received, we will open them in Microsoft Word for grading. This will enable us to make comments, ask questions, etc. We will then return your assignment through the Student Grade Center area. We will make an announcement when papers are returned to remind you to check the Student Grade Center. To see comments about your assignment, click on your grade.</p> <p>If you need more instructions on how to submit files through the assignment link in the modules, please read the User Manual located in the Tools area.</p>
<b>Safe Assign Program on Blackboard Written Assignments:</b>	<p>SafeAssign is a feature provided by Blackboard that is designed to detect plagiarism or non-original student work. Your instructor may set up this feature so that when you submit papers, they are automatically sent through SafeAssign. The program checks your work against a comprehensive database of source material including previous students' work and other papers and materials found on the web. An originality report will be generated that indicates the percentage of non-original material (text that matches existing sources) found in your paper. The purpose of using SafeAssign in your course is to ensure you are writing original papers and to encourage you and all students to properly attribute all sources used.</p>
<b>Email:</b>	<p>All students are required to use their student <b>Patriot email accounts</b> for all correspondence (Approved FO: 2/03). To communicate by email within the course with other participants or all participants, click the Communication link on the left side of the Blackboard frame. Click Send E-mail to send a message. You have the option to send messages to All Users or Select Users in the course, including the instructor(s). If you need further instructions on how to send email messages from within Blackboard please read the User Manual located in the Tools area of the course.</p> <p>The faculty email addresses is <a href="mailto:mhermanns@uttyler.edu">mhermanns@uttyler.edu</a></p>
<b>Digital Library Resources:</b>	<p>Students enrolled in this course have online access to the UT Tyler <a href="#">Robert R. Muntz Library</a>. Follow this link, and then complete the instructions at those sites for accessing information from a distant site. Many of the database subscriptions funded by student</p>

	<p>fees give you access to full text journals that you will need for your review of the literature in each course. If a particular journal is not available, the library staff will procure the article for you using the Iliad feature. Please take the time to update your account and get familiar with the resources available. They are awesome.</p>

**Grade Replacement/Forgiveness and Census Date Policies**

Students repeating a course for grade forgiveness (grade replacement) must file a Grade Replacement Contract with the Enrollment Services Center (ADM 230) on or before the Census Date of the semester in which the course will be repeated **(For Spring: January 30<sup>th</sup>)**. Grade Replacement Contracts are available in the Enrollment Services Center or at <http://www.uttyler.edu/registrar>. Each semester's Census Date can be found on the Contract itself, on the Academic Calendar, or in the information pamphlets published each semester by the Office of the Registrar.

Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. Undergraduates are eligible to exercise grade replacement for only three course repeats during their career at UT Tyler; graduates are eligible for two grade replacements. Full policy details are printed on each Grade Replacement Contract.

The Census Date **(For Spring: January 30<sup>th</sup>)** is the deadline for many forms and enrollment actions that students need to be aware of. These include:

- Submitting Grade Replacement Contracts, Transient Forms, requests to withhold directory information, approvals for taking courses as Audit, Pass/Fail or Credit/No Credit.
- Receiving 100% refunds for partial withdrawals. (There is no refund for these after the Census Date)
- Schedule adjustments (section changes, adding a new class, dropping without a "W" grade)
- Being reinstated or re-enrolled in classes after being dropped for non-payment
- Completing the process for tuition exemptions or waivers through Financial Aid

**State-Mandated Course Drop Policy**

Texas law prohibits a student who began college for the first time in Fall 2007 or thereafter from dropping more than six courses during their entire undergraduate career. This includes courses dropped at another 2-year or 4-year Texas public college or university. For purposes of this rule, a dropped course is any course that is dropped after the census date (See Academic Calendar for the specific date).

Exceptions to the 6-drop rule may be found in the catalog. Petitions for exemptions must be submitted to the Enrollment Services Center and must be accompanied by documentation of the extenuating circumstance. Please contact the Enrollment Services Center if you have any questions.
