

Dear Qualified Provider:

To best support this student through the Student Accessibility and Resources office at The University of Texas at Tyler, informative documentation of his/her disability will need to be provided. If possible, please provide us with a copy of any evaluative reports and testing data related to this student's disability from your records. We ask that you briefly state the length of relationship, diagnosis(es), functional limitations (how the diagnosis may affect the student's experience on a higher education campus), and any suggested accommodations. Please provide this information on your professional letterhead and include your signature, professional title(s), credentials/licensure, and contact information (address, telephone number, and email).

Thank you for taking the time to provide us with this necessary information. We look forward to working with this student and the information you have provided will enable us to provide appropriate accommodations allowing equal access to the activities, courses, and programs offered by the University.

Additional guidance on documentation can be found on our website:
