3. Employment status
4. Employer

B. Additional STEM OPT Reporting Requirements

   - Or both halves at the end of a period of employment lasting less than 12 months, and the bottom half if less than 24 months.

To ensure you are following the most up-to-date requirements at all time, you are responsible for periodically consulting an official source, such as Study in the States.

II. How to Report

A. Students on OPT

Students on initial post-completion OPT have the ability to report all changes to the above including their employment information through their SEVP Portal account.

SEVP Portal account registration links expire 14 days after being sent. If you do not register your account within this timeframe, you will need to email us to have your SEVP Portal access reset, after which you will receive a new registration link. For help with other SEVP Portal issues, consult the User Guide.

B. Students on STEM OPT

The SEVP Portal does not currently provide those on STEM OPT the ability to add new employment; editing functionality is limited strictly to general reporting fields that do not require DSO verification for STEM Program compliance—adding an end date to an existing employment record, items 1-3 in section IA above, etc.

To report new employment while on STEM OPT, fill out and submit the DocuSign STEM OPT Employment Report.
