CORE VALUES

SAFETY: Our greatest responsibility is to protect our students, our guests, and each other from harm or injury. To meet this responsibility we strive to create a safety culture through regular training and heightened awareness of safety issues, and safety education to our constituents. Safety is the single most important element of our work routines.

SERVICE: We help UT Tyler accomplish its mission by delivering exceptional customer service to our university clients. Our clients' satisfaction with our service is one of our primary metrics.

SYNERGY: We believe that we can accomplish much more by working together as a team than we could accomplish working independently. Based on this belief we try to support others as we work, treat all coworkers with respect, demonstrate professionalism, and contribute to a sense of fairness in our workplace.

STEWARDSHIP: As public employees we have been entrusted with resources that belong to the citizens of Texas. It is our responsibility to ensure that those resources are allocated to create the greatest value for the citizens.

SUCCESS: We believe that we can accomplish much more by working together as a team than we could accomplish working independently. Based on this belief we try to support other as we work, treat all our coworkers with respect, demonstrate professionalism, and contribute to a sense of fairness in our workplace.
