**Evaluation and Grading:**

Below you will find the specific category and the weight of that category.

- Chapter Tests (85%)
- Comprehensive Final Exam (15%)

Please note that grades are weighted by category. At any point during the semester you can do some simple math to figure out what your current grade is. Please see the example below:

- Student A has a Test average of 90 and estimates they will make an 80 on the final exam (since this is done at the end of the semester you will have to estimate here).
- Multiply your averages by the weights above then add each product for your final grade.
  - Tests Average: $90 \times 0.85 = 76.5$
  - Final Exam Estimate: $80 \times 0.15 = 12$

$76.5 + 12 = 88.5$

**FINAL GRADE:** 88.5%

**Teaching Strategies:**

Please make sure you have logged into Canvas and reviewed the informational messages explaining the workings of this course.

It is very important that you are reading each assigned chapter and taking notes on the provided PowerPoints. These notes will be your best tools to help you take your reading quizzes and prepare for the tests and final exam.

**Required Text, Materials/Supplies, and Related Readings:**

Your textbook is an “e-book”. You must have access to the eBook (REVEL) in order to complete assignments. Please make sure you have purchased the access code by the first day of class. In case you have any difficulties getting access to your eBook, you can start a free 2-week trial. That way you won’t get behind.
This e-book allows you access to a multi-sensory approach to learning this content. You can read the chapters on your own, pop in your ear buds and have it read to you, have it read over Bluetooth in your car, etc. Please take a little time and explore the Revel program for our textbook. I really think you will like it.

REVEL for Psychology

Saundra K. Ciccarelli, Gulf Coast Community College
J. Noland White, Georgia College & State University

ISBN-10: 0134623703

In addition to the text, you are also required to have access to a working computer and reliable Internet connection for this course. Computer problems, Internet connectivity problems, etc. will not be substantial reasons for making up assignments. If you have issues with Canvas or Revel, you should contact the appropriate IT support, not your instructor, for help with the problem. If you have documentation from IT that the problems you encountered were related to Canvas or Revel, you may email that to me and we will discuss how you can make up your assignment. Again, note, that computer and Internet problems not related to Canvas or Revel and documented by their respective IT departments will not be reasons for extended time or reassessment of your tests.

Full policy details are printed on each Grade Replacement Contract.
The Census Date is the deadline for many forms and enrollment actions of which students need to be aware. These include:
