TOPICAL OUTLINE:

Chapter Quizzes Average: BONUS!!! I will announce IN CLASS ONLY when the reading quizzes are open on Blackboard. I open each quiz about a week prior to when I will be lecturing over that content. I hope this encourages you to read the chapters so you will be prepared for class lecture. I expect everyone to read their chapters and wanted to find an easy way to reward you for doing it.

How does the bonus work? I will take you overall quiz average (there are typical 8-10 offered) and then multiple that average by 5% and then add those points to your FINAL grade. So, it is possible to have 5 points added to your final grade. Here is an example:

Your final grade (test average) before bonus: 80
Your quiz average: 70 (70*.05=3.5)
Your NEW final grade is: 83.5

Please make every effort to take advantage of these reading quizzes. They are here to help you. I announce their “open” date in class and you will have one week to complete the quiz from the date of the announcement.

TESTS: You will have 5 chapter tests. Your final grade will consist of the average of these 5 tests.

TEST DATES:

Ch. 1&2: 2/6
Ch. 3&4: 3/8
Ch. 5&6: 3/29
Ch. 7&8: 4/12
Ch. 9&11: 4/26

The chapter tests will be given on these dates unless otherwise announced in class or on Blackboard. I will do my best to stay on track so these tests will be administered on these dates but in the rare chance something happens, I will notify you ASAP of the change.

What if you miss a test?
I may permit you to make up a test ONLY if you have a documented reason for missing the test. You must provide me with the appropriate documentation (e.g. doctor’s note stating your absences during the specific time in question, university athlete). You will need to provide me the documentation via email or in person within one week of returning to class. No exceptions.
LECTURE INFORMATION?
I will lecture in class over the chapter content. However, I have also provided you with some more tools. I have compiled a plethora of lecture content under each module. Some of the content is me doing “mini-lectures”, others are video clips and material I have collected for your review.

You cannot expect to do well in this class if you only read through the material once and then take your quiz. You are also expected to read all required material prior to class meetings. I announce every class what I need you to read before the next class. It is VERY important that you are there.

I recommend printing out the skeleton Powerpoints, reading the chapters while beefing up the PP, and then review your notes. I have provided a few versions in each module for your.
