Course Catalogue Description:
450 or 300 clock hours of supervised experience in a setting in which psychological or counseling services are provided. Grades = CR/NCR/IP only.

Course includes on-campus small group supervision meetings. Students must complete a Supervised Practicum prior to degree completion. This practicum experience is necessary in order to meet the established criteria for state licensing requirements. The practicum experience is designed as a psychology course at UT Tyler but is conducted off-site under the supervision of a qualified licensed professional at external settings. Practicum experience is usually conducted at local mental health centers, hospitals, or clinics but may be done at any setting in which supervised mental health services can be provided. Each student may choose a practicum experience with approval from the practicum instructor. Direct client services at a practicum site for PSYC 5396 should not begin until the student has completed the PSYC 5393 Applied Therapy course. Practicum placements involving only psychological testing for PSYC 5397 may be approved by the instructor prior to the completion of PSYC 5393, provided that the student has already completed the relevant testing courses in preparation of that Practicum site.
