

HAZARDOUS WASTE SATELLITE ACCUMILATION AREA LOG SHEET

Waste Log Number _____ Date: _____

Department: _____ Building: _____ Room: _____

Contact: _____ Phone: _____

- This log sheet is required for **EACH** Satellite Accumulation Area (SAA).
- Every time a waste container is added to the SAA it **MUST** be logged on this sheet.
- For containers where similar wastes are bulked, log everything except the weight and pH, those should be added only when the container is full.
- The Chemical name should be spelled out, no abbreviations or structures.
- Wastes **must** be segregated into secondary containment bins according to the type of hazard present.
- Every container must be labeled as soon as it is added to the SAA.
- All portions of the label must be completed.
- The generator is responsible for the identification of the waste.
- For additional details or instructions contact EH&S ext. 7011 for a copy of the **Hazardous Waste Program**.

Container #	Chemical Name(s)/CAS#	Weight	pH	Date	Time	Initials
