Course Structure:

This course is conducted entirely online using the Canvas platform. This course is designed using a weekly format to assist you in organizing your time and efforts. This is not a self-paced course and materials will be provided in a weekly format. Refer to the course schedule below and note the established assignment due dates, as the automatic reminders in Canvas may not be set. The class textbook, discussion boards, quizzes, and critique are used to trigger your understanding and assist you in applying the learned knowledge.

Graded Course Requirements:

Students will be evaluated by their substantive Canvas posts, quizzes, assignments, and exams. Quality, quantity, and timeliness will be assessed. Letter grades will be assigned based on the scale provided. Grades will not be rounded beyond that stated below. Students are responsible for verifying that all electronic submissions are correctly uploaded. All scores will be based on what is submitted by the deadline. The possible points for each assignment are as follows:

Grade Composition:

Weekly Activity (40%)	
Attendance/In-class Participation	10%
Threaded Discussion	10%
Weekly Quiz	20%
Workforce Trend Report (30%)	30%
Exams (30%)	
Midterm	15%
Final	15%
Course Total	100%

Weekly Activity (40% of grade): “Weekly Activity” is a critical part of the class. *****Regarding weekly activities, late submissions will be penalized by 10% for any full or partial day late***** If your assignment is turned in at 12:01 am, it is considered late!! Be sure to turn in all assigned work for grading by the deadline. Your “weekly activity” grade will consist of the following:

1. **Attendance/In-class Participation (10%):** Participation is a critical part of the class. Your participation grade will be graded based on your attendance and in-class participation. Students will be responsible to report an absence in advance to avoid penalty. ***Your active participation*** may increase your chance to have bonus points throughout this course.
2. **Threaded Discussion (10%):** Students will be asked to provide their own thoughts related to the weekly discussion topics. Reply to **two or more Threaded Discussion topics** by **Friday 11:59pm**. This activity allows students to reflect on each week’s lessons and apply knowledge in the textbook to real-world problems.
3. **Weekly Quiz (20%):** Students’ learning will be also assessed by quizzes. Weekly quizzes should be completed by **Friday 11:59pm. Two attempts** at each weekly quiz, where you receive the highest grade of the attempts made. The quizzes are timed to enhance the academic experience and promote mastery of the material. Students must have a reliable internet connection as quizzes cannot be reset. Once you start the quiz you cannot stop; should you stop or exit the browser, your grade will be recorded accordingly.

Workforce Trend Report (WTR, 30% of grade): For this project, students will identify a workforce trend and develop an intervention to address the trend. Although the instructor will provide materials that illustrate the future of workforce trends, students are encouraged to find the workforce trend that they are most interested in. Students are expected to develop the report with valid references to support their arguments in the trend report. There are some highlights:

- The manuscript should be written in a professional format*
*formatting is important for the professional report.
- To reduce time pressures in completing the plan, there are two components:
 - 1) Component 1 (10%): Identify a workforce trend
 - 2) Component 2 (10%): Design workforce/OD intervention
 - 3) Final Paper + Reflection (10%): Based on the two components, students should develop a professional report explaining a workforce trend, a workforce/OD intervention, and expected outcomes as a final paper.
The final paper should be developed by reflecting on the instructor’s comments on those two components. In the final paper, the first two components should be revised based on the instructor’s comments.
In the final paper, students should include *a brief reflection* on the trend activity.
- *Disclaimer: The detailed grade composition is subject to change and you will be responsible for abiding by any such changes. Your instructor will notify you of any changes.
- ***Late submissions will be penalized by 10% for any full or partial day late.***
- The detailed guidelines will be provided on Canvas

Exams (30% of grade): There will be the Mid-term (15%) and Final (15%) exams. The exams will be in multiple choice and true/false formats. The instructor will select the chapters for the final. Your exams will be open book; however, they will be timed so it is important to prepare for them properly and in a timely manner. ***Late submissions will not be accepted.***

Grading scale: Students will be evaluated based on the grading scale below.

A	90% - 100%
B	80% - 89.9%
C	70% - 79.9%
D	60% - 69.9%
F	≤ 59.9%

Note: Final grades will not be rounded or adjusted based on proximity to these cut-points.

Grading Philosophy: I understand that the process of receiving grades can inhibit the learning process. I endeavor to create a safe learning environment. As part of that environment, you have several opportunities to maintain a high grade in the course, including:

- Two attempts at each chapter quiz, where you receive the highest grade of the attempts made.
- All quizzes and exams are open book. However, it will be timed so it is important to prepare for them properly and in a timely manner.
- Bonus opportunities throughout semester.
- Timely feedback on assignments.
- Course schedule in the Syllabus may be altered during the semester due to unforeseen circumstances.

UT Tyler continues to urge you to protect yourselves against the flu, COVID and any new threats that may be developing. Be diligent about preventive measures such as washing hands, covering sneezes/coughs, social distancing, and vaccinations, which have proven to be successful in slowing the spread of viruses. Encourage those who don't feel well to stay home, and if they show symptoms, ask them to get tested for the flu or COVID. Self-isolation is important to reduce exposure ([CDC quarantine/isolation guidelines](#) (Links to an external site.)).
